THE SOCIETY'S MAGAZINES.

THE MISSION FIELD.

The Mission Field is the official organ of the Society, and although it is now printed on an improved paper, and appears in a cover of new and attractive design, the price remains the same, viz., 1d. It is published in crown 4to. size ($9\frac{1}{2} \times 7\frac{1}{2}$ inches), with double columns, and the number and interest of the accompanying illustrations give it an exceptional position amongst missionary magazines. It is obtainable as follows:—

(1) If less than 12 copies are required monthly, they should be ordered through a local bookseller; or of the Publishers, Messrs. G. BELL & SONS, LTD. (York House, Portugal Street, Strand, W.C. 2), who require prepayment, viz., 1s. a year, by post 2s., for a single copy.

(2) If 12 or more copies are required monthly, the Society supplies them direct from the Office POST FREE, at the rate of 1s. a copy, if prepaid for the year.

The bound Volume, 2s., by post 2s. 5d. Covers for binding 1s., by post 1s. 3d.

The Society issues a monthly edition of this Magazine printed in Braille type for the blind. Orders (accompanied with remittances) can be placed for the year. The price is 2d. per copy, including postage. We hope our friends will make the fact of this Braille edition known as far as possible.

THE KING'S MESSENGERS.

This Magazine is designed to interest children in the work of Missions and contains bright, interesting articles, fully illustrated by photographs. The price is $\frac{1}{2}$ d. per month.

If less than 12 copies are required monthly, they must be ordered through a local bookseller; or of the Publishers, Messrs. G. BELL & SONS, LTD. (York House, Portugal Street, London, W.C. 2), who require prepayment, viz., 6d. a year; postage for 2 copies $\frac{1}{2}$ d. a month. If 12 or more copies are required monthly, the Society supplies them direct from the Office POST FREE to any place in the United Kingdom at the rate of 6d. a copy, if prepaid for the year. Bound volumes, price 9d.; by post 1s. Covers for binding 2d.; by post 3d.

THE EAST AND THE WEST.

The East and The West is a Quarterly Review, royal 8vo. Its *raison d'être* is to discuss problems which arise out of Mission work, both in heathen countries and the Colonies. *The East and The West* may be obtained through any bookseller at 1s. net per copy; or direct from the S.P.G. Office (15 Tufton Street, S.W. 1) by post 1s. 2½d., or 4s. 6d. per annum, post free, if prepaid. Volumes I. to XIV. are now procurable, price 4s. 6d. net each, by post 5s. Cases for binding, 6d. net, by post 8d.

“HOME WORKERS’ GAZETTE,” S.P.G.

Edited by BISHOP MONTGOMERY.

This Magazine (published monthly), containing notes and suggestions for those who are engaged at home in promoting the cause of Foreign Missions. Each department of Home Organization has a share of the *Gazette* and talks to its own workers. The Editor surveys the home field monthly, supporting every forward movement. It may be obtained through any bookseller at 1d. per copy; or direct from the S.P.G. Office (15 Tufton Street, Westminster, London, S.W. 1) for 1s. per annum, post free.

“THE CHURCH ABROAD.”

The Church Abroad contains 8 pp. of crown 4to. printed matter and numerous illustrations. It is of a size suitable for insertion in parish magazines, i.e. $9\frac{1}{4}$ by $7\frac{1}{2}$ in. Copies folded only can be obtained if so desired to permit of easy binding up with parish magazines. There is also an 8vo. edition (size $8\frac{1}{2}$ by $5\frac{1}{2}$ in.) of this illustrated Magazine issued monthly, consisting of 12 pp.

The terms of subscription for Inland and Canadian Circulation are as follows:—

For either size—price 1s. per 100, or 8d. for 50; i.e. 12s. per 100, or 8s. for 50, post free for twelve months, if ordered and paid for in advance up to the close of the year.

Terms for smaller quantities and foreign circulation will be supplied on application.

Bound volumes—4to. edition 6d., by post 9d.; 8vo. edition 9d., by post 1s.

The “Church Abroad” can only be sent in reply to prepaid orders, and must be obtained from the Society’s Office direct, not through any bookseller or agent.

It will save the Society considerable expense and trouble if all Magazines (except “The Church Abroad”) are, wherever possible, ordered through a local bookseller; by which means our Subscribers are enabled to alter the number and render their payments monthly. The local trade is also given a direct interest in the Society’s publications.

Agents for the "OEDENS" Pure Altar Wine.

12/6 & 15/- „ „ **Half-Bottles.**

St. Peter's Rectory, Walworth, S.E.

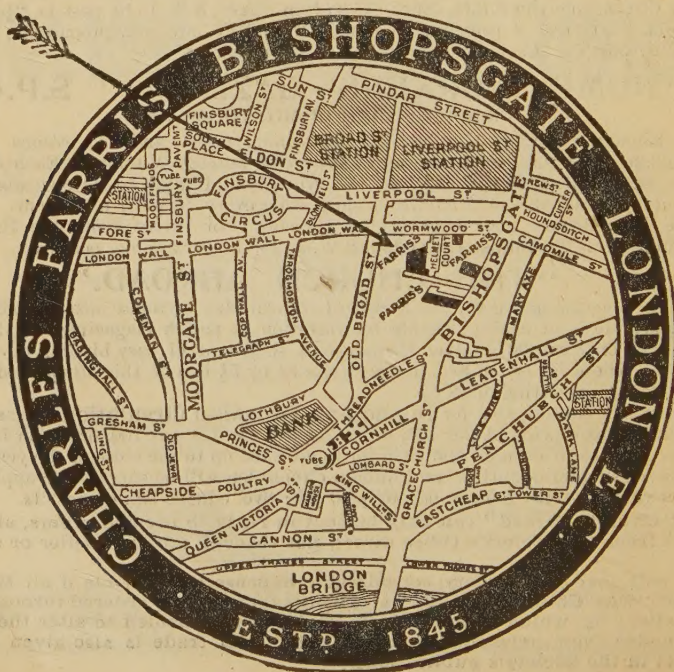

It was over 25 years ago that I caused samples to be taken of all wines advertised for Eucharistic purposes. Some were found to have much added alcohol, and others extraneous matter. Messrs. Ford & Son's "Oedens" proved the best on analysis. I have since then used no other, and have never found any difference.

Rev. CANON HORSLEY.

Carriage paid on all orders of one dozen bottles or two dozen half-bottles.

All Altar Wines guaranteed the pure juice of the Grape.

15 TUFTON STREET WESTMINSTER S.W. 1.

[Published May 1, 1917.]

NOTICES AND DIRECTIONS.

Telephone 1861 VICTORIA.

Telegraphic Address: "GOSPELIZE, VIC, LONDON.

Code "PREMIER AND ECCLESIASTICAL."

"While recognising the advantage to the Society of meetings organised by its friends for the sale of work and other articles, which, in addition to the funds obtained, enable those of small means to help by personal labour, the Standing Committee are of opinion that the objects of excitement which are sometimes added to such sales ought to be discouraged, since they are alien from the spirit of self-denial by which the Gospel is best propagated."—*Resolution passed by the Standing Committee, 1888.*

LETTERS.—It is requested that ALL LETTERS on the business of the Society be addressed, "The Secretary, S.P.G. House, 15 Tufton Street, Westminster, S.W. 1." Letters relating to Publications should be written separately from those relating to or containing Contributions to the Society.

REMITTANCES, when sent direct to the Society's Office, should be made:—

By Cheque, Money Order on the "Chief Office, London," or Postal Orders, payable to "The Treasurers of the S.P.G. OR BEARER," and crossed "MESSRS. DRUMMOND."

N.B.—In the case of those Dioceses where there is a Diocesan Treasurer it may be preferred to remit through him. His name and address will be found in the Diocesan Reports.

DAY FOR CLOSING ACCOUNTS.—The Society's financial year closes on December 31. Since, however, it may be difficult for Local Secretaries and Treasurers to get in all the Subscriptions before the end of the year, the Treasurers' books will be kept open until January 16 each year.

MONEY ON ACCOUNT.—It would be a great help to the Treasurers if moneys in the hands of Local Secretaries and Treasurers could be remitted at least quarterly, or half-yearly, *on account*.

Unless remitting "on account" the particulars giving list of names etc., should always accompany the remittance. Membership subscriptions should be clearly marked as such.

FORM OF LEGACY.—I give to "THE SOCIETY FOR THE PROPAGATION OF THE GOSPEL IN FOREIGN PARTS" the sum of £ †; or * (*vide Note*), to be applied to the purposes of the Society, and the Receipt of a Treasurer of the Society shall be sufficient discharge for the same.

* NOTE.—Under the Mortmain Acts (as now amended) land, tenements and hereditaments of any tenure may be given by Will to or for the benefit of any charitable use, but must be sold within one year of the death of the Testator for the benefit of the Charity. Personal property of any nature may also be bequeathed for charitable purposes.

† If intended please insert the words "Free of duty."

OFFICE HOURS TEN TO FIVE DAILY, except on Saturday, when the Office is closed at 1 P.M., and on Ash Wednesday, Good Friday, Easter Eve, Ascension Day, Christmas Day, and the legal Bank Holidays, when it is closed entirely.

Short Services are held in the Chapel of the Society's House at 10 a.m. and at midday. The "S.P.G. Cycle of Prayer and Praise" contains the prayers which are said in the Chapel at midday. It also includes a list of the Society's missionaries throughout the world. Price 2½d., post free.

Annual Report

1916.

INTRODUCTION.

IT is unnecessary to ask for the indulgence of our supporters in consequence of the curtailed dimensions of this Report. All Churchmen are more than ready to help the Government by economies in paper, printing, and postage, as well as making possible considerable savings of the funds sent to the Society.

And it will be remembered that all such savings release money for noblest purposes abroad. Bishops who have sent us reports will not therefore see their names, for once, on this first page. Moreover, once again in the interests of economy, we have omitted anything like full records of dioceses in this Annual Report. Let it be understood, however, at the same time that good use is made of such reports for the "Brief Report." Moreover, all possible references will also be made to such Reports in the *Mission Field*.

All will note in our published writings in these days a continued note of thankfulness. We lift up our hands and bless God for His mercies. He is trying the House of His Church with the rain and the wind in order to test its foundations. And when we realise this we have no reason to do aught but rejoice. We see His hand: that is enough. And we note, both at home and abroad, how deepened life is, graver, nobler, for millions. If that is true, then it is worth while to have been afflicted that we may so fully learn His commandments. And as the Church at home purifies and uplifts its life by Divine Grace, so it sheds a brighter light on regions overseas. All the world will feel the ennobling of human life. These days, therefore, are worth living through; bringing us face to face with realities, forcing us to turn to God in faith. What will posterity say of this generation? Let us so live that they may rejoice. Let us so trust in God our Father, in His Son our Saviour, in the Holy Ghost our Sanctifier, three Persons one God, that they who do God's work after us may bless the spirit and vision of our own times.

A SURVEY OF THE FIELD OF THE S.P.G.

Almost every diocese in the world has been "marking time" during the war, and nothing is more natural. Moreover, the S.P.G. has requested every diocese which it assists to do its best to conserve its own grants as an act of prudence. The appeal was not prompted by any desire to reduce those grants, but in order to secure the

future stability of all such grants. In other words, the Society promised that all grants so saved should be reserved for the diocese in question in case the funds of the Society ran short. The response by dioceses has been most gratifying. One example alone is here given as a specimen of self-denial in every continent. The diocese of Newfoundland sent £730 as an extra contribution to the general funds of the Society, and stated that the effort had not injured any local causes.

In *India* the S.P.G. has continued to aid the Bishop of Chota Nagpur in his shepherding a very large German Mission within his diocese. This work continues: eight clergy are specially given to the work of superintendence and to the keeping of discipline and the watching of accounts. From Calcutta we hear that Bishop's College is not yet opened as a great central Theological College for lack of a Principal and a Vice-Principal. The college, it will be remembered, has been placed by the Society in the hands of the Indian Episcopate. A word must be said also about the development of self-government in the Church in India. South India is perhaps foremost in this cause. The Bishop of Tinnevely, for example, has at length created an Advisory Council of Superintendents of Missions. It is as near an approach to an organised Diocesan Council as is at present possible; a welcome step, when it is remembered that up to the present the Tinnevely Diocesan Council has met in Madras 400 miles away. The Bishop has also succeeded in giving more power to local church councils, another welcome step. Furthermore, he has strengthened his diocesan magazine by including in it for the future a portion written in Tamil. Every step is a source of satisfaction to those who work for the Indian Church of the future.

But perhaps the most significant movement in India is the expressed desire of leading Indians for a Conscience Clause in all government-aided schools. They ask simply for what obtains in all the Dominions, and plead for religious freedom. From this point of view there can be but one response from every Englishman or from every member of the British Empire who has become a civilised person. We pride ourselves upon the possession of religious freedom. The perplexity arises when we consider the actual position of thousands of missions in India supported by funds given expressly for the evangelisation of India and under a system of grants-in-aid from Government for more than half a century. The Indian Episcopate may be trusted to deal with such a question in the wisest and in the most enlightened manner.

In *Burma* and *Singapore* there are no outstanding events to chronicle. But Borneo has lost its Bishop. Bishop Mounsey has been compelled to resign his See owing to ill health, and no appointment has yet been made. In North China, where the S.P.G. funds are placed at the disposal of two dioceses, an appeal has been made to European missionaries to volunteer for War Service. Already several have gone, and now the British Government have asked for the invaluable aid of other European priests to accompany Chinese Labour Battalions recruited in Shantung for war work on

one or other of the fronts. Bishops are naturally embarrassed. The opportunity is a noble one, but if accepted it would almost entirely denude some dioceses temporarily of European priests. Would it be a good thing? That is the question. We understand that a like step has been taken by Bishop Trollope in Corea.

Africa.—So much has been said about African problems in the previous Survey in this Report that a few lines will be sufficient. From the Province of S. Africa Labour Battalions have already gone to the front; and we rejoice to know that these men have been accompanied by European priests and ministers, by African clergy, and by earnest and high-minded magistrates, whilst in the ranks there are many catechists and other Christians.

The Gold Coast.—There is no doubt that an immense work lies ready to hand in the western region of this colony. The people are crying out for instruction after a beginning had been made by a remarkable man, an African. Accounts of this opening have already appeared in our magazines.

Madagascar.—Very welcome news has reached us from this diocese, which of course is situated in French territory. The relations between the British Missions and the French Government have become infinitely more friendly than they have been in the past. The Government have satisfied themselves by close personal inspection that no more loyal body exists in the colony than the staffs of the various British Missions.

The *West Indies* have lost three Bishops of the Province. The Sees of Barbados, Trinidad, and British Honduras have to be filled. Above all the whole region mourns the death of one of its noblest statesmen—Archbishop Nuttall. The whole Anglican Communion unites in the same sorrow.

Canada.—The Canadian Church stands out nobly as having sent a very large percentage of its population to fight the battles of the Empire. It is a fine record. Not only have tens of thousands of Churchmen joined the ranks, but the clergy of the Church have been permitted to go as chaplains to such an extent that it is no uncommon thing to hear of a diocese with twenty-four vacant missions. Of course such ministrations as are possible are supplied by other districts. The Canadian Churchmen have set us in Great Britain a fine lesson of self-denial.

The Future.—If we look into the future we have to ask ourselves what we may expect to gain from the armies in the field at the conclusion of the war for recruiting the spiritual army abroad and in every continent. Signs are not wanting that there may be a fine offering of men and women who, having lived a deeper and more real life, will henceforth desire to dedicate themselves to the spread of the Kingdom of God. The question for us at home is whether we shall be worthy to meet this offering with adequate funds, and with plans nobly made and ready to hand. We are marking time during 1917, but by the blessing of God we hope and believe that we shall march forward when the day for advance has dawned.

A SURVEY OF THE WORLD.

There are too many problems at the present time, all of them in a state of solution, for anyone to do more than indicate what these great subjects are. Perhaps a perusal of these pages may produce a cumulative conception of the general situation. The horizon is dim indeed. No one knows what another twelve months may make possible or impossible.

I. *German Missions*.—In the field of the Church, which is the world, the great disturbing factor has been the collapse of German Missions in the war area. Politically it was a necessary step: none the less the Christian is made unhappy; whilst acquiescing in the absolute necessity of such actions, he is humiliated. He has no doubt that the mass of the German missionaries who have been deported were faithfully carrying on their primary duty: and the cessation of their influence is so far a calamity. It must perplex the races thus bereft of their Christian teachers and evangelisers. Once more, therefore, the Church mourns the unhappy and baneful effects of Churches or Societies which exist for a double purpose, which are partly engaged in noble work and yet have been tempted to spoil it by the addition of double motives, dreaming of political power and working for it.

Arising from this course, among the great tragedies of these years of strife must be placed the fact that the Government of India has asked an ominous question—namely, Is it possible in future to permit alien teachers to be the main instructors of masses of simple peoples within our Empire? Germany has done no greater disservice to Christendom than the necessity for putting such a question. Members of the British Empire receive a shock at the thought of such a doubt being addressed to themselves. For wherever British missionaries are at work outside their own Empire, as in Madagascar, China, Japan, and Corea, they are known to be guiltless: nay, they are specially forward in inculcating complete loyalty to the power whose guests they are whilst they found the Kingdom of God which “has no frontier.” In this connection it is most gratifying to be able to state that, for example, the relations between British Missions and the French Government in Madagascar have become very much more friendly since the beginning of the war. The French authorities have been inspecting the books and listening to the instruction given by the teachers and clergy, and have become completely convinced that British Missions are an instrument for the growth of complete loyalty to the ruling power.

Germans in Africa.—Allusion has been made at present to the withdrawal of German missionaries from Asia, Africa, and the South Pacific, and the belief has been expressed that the vast majority of these German pastors have all along been kindly and humane. But it is necessary to refer to another, and a very saddening fact. The action of the German Government in regions such as the Continent of Africa has been disastrous for the peoples of those

regions. There is indeed but one opinion among those in the British Empire who have devoted their lives to the welfare of semi-civilised peoples or what are called child races, or aboriginals low in civilisation, in regard to the future of the Continent of Africa. Whatever may be the ultimate re-modelling of the map of Africa, they assert that one European Power at least must have no place anywhere in Africa. This conviction is not based on any desire for territory. Indeed, upon the whole, European nations shrink from the idea of greater responsibilities of rule. It is solely in the interests of African peoples that they have expressed themselves in this manner. It is unquestioned that every African tribe or race that of late has escaped from German rule is overjoyed: moreover, it is certain that the German Government is well aware of the fact, with the result that were Germany to be permitted to return to any portion of Africa as a ruling power, the fate of African peoples once more subjected to that yoke would be too terrible to contemplate. It is only left to us to hope that possibly in the course of a generation a new Germany may be able once more to become a worker in the cause of the evangelisation of the world. It may be as well here briefly to set down the facts about German Missions as affected by the war.

India.—Five hundred German missionaries have been deported and brought safely back to their own land. At least one of these German Missions has been handed over to the Swedish Church Mission. Another has been taken over by an American Lutheran Mission. In S. India the Government has consented to the formation of a Committee which has charge of certain missions. The S.P.G. has been temporarily placed in charge of a Mission consisting of some 100,000 members, pending future arrangements.

Africa.—From what was German S.W. Africa some of the German missionaries have been deported. The whole population of that region is regrettably small after years of German rule.

On the *Gold Coast* it is understood that a Scotch Mission may take over the large Basle Mission.

In *Togoland* no steps have yet been taken. From the German *Kameruns* the missionaries, both Roman and Protestant, have been removed. The French authorities have released French priests from the ranks of the troops in occupation in order that they may carry on the Mission, and leave has been given to a French Protestant Mission to inquire what it can do. There has been a terrible slaughter of the inhabitants in this region owing to German rule.

From *German East Africa* the German missionaries have been sent to India. Nothing further has yet been done for *German New Guinea* and in *Samoa* no steps have yet been taken.

II. *Palestine.*—No excuse is needed to append to the above problem a further perplexity arising from German success in obtaining Turkey as an ally. *What is to be the future of Palestine?* Who is to balance the claims of the Orthodox Churches and of the Latin Church? and further, of Moslem and of Jew? What is to be the future of the Temple area? The banishment of the Turk

does not, as the past has revealed to us, mean peace necessarily in the Holy Land.

III. *India*.—The association of many races upon the same side in this war opens up a new field of experience with possibilities. Nor is it likely that spiritual aspirations can be kept apart from those which are political. No one would wish it. India is about to take its seat as an integral part of the forces of the Empire and as an arbiter of the political future of the world. Indian Christians may well desire greater autonomy in their spiritual as well as in their civil life. India also is the great Mission Field of the world, both as regards missionaries from outside its borders and in the numbers of converts. A few figures may be of assistance: there are 5,200 foreign (non-Roman) missionaries at work in India, and 4,400 Roman, and there are not far short of four million Christians. No non-Christian land has so many Christians. The next in number is China, with nearly two million Christians.

IV. *Labour Battalions*.—A feature in this intermingling of races for war purposes is the creation of labour battalions from South Africa and from China and elsewhere. But the new factor in connection with them is the care taken to guard these workers from moral deterioration. Missionaries who know the language are being entreated to accompany them; and European laymen who are religious men are also being recruited for the same purpose, as well as clergy of African and Chinese races.

V. *Future Churches*.—As Christians thus work together for great ends it occurs to Christian statesmen to ask what form the Christian Church will take when it becomes indigenous in many lands east and west, north and south. The Anglican answer is clear. So far as our efforts are concerned it will be locally free and independent, but ever on the Catholic foundation, and consequently in federation and alliance, and in full communion with, other Churches on the same foundation. But as races mix within the same region, what then? Suppose that Europeans reside in India or in China: suppose that in America, north or south, Negroes, Indians, and members of many white races find themselves fellow citizens of the same country and under the same laws, what is to be their status within the Christian Church? This problem was faced during 1916 by the Protestant Episcopal Church in the United States at their Convention. By a large majority in the House of Bishops it was resolved that "Race Churches" in the same area were contrary to Catholic Order. There can be no doubt that this was a wise and noble decision, the only possible decision, it is believed, within the boundaries of the Catholic Church. As you cannot have separate nationalities living under separate laws in the civil sphere, so it is infinitely more essential that all Christians should in any one locality form one Brotherhood, one Diocese, one Bishop: then in detail any plans are possible for convenience' sake and especially when a diocese contains races differing in language, in level of education and in general habits.

VI. *The position of Islam*.—Never was there a time when the future of this religion was in a greater state of flux. Probably

for the first time in their history Moslems by tens of thousands have been found fighting wholeheartedly against their political Head, and in the cause of freedom. Also, with the full consent of the Allies, Arabia would appear at length finally to have severed itself from Turkish domination. At the same time Bagdad, the seat of the early Caliphate, has passed into the hands of the British and with the approval of the Moslem world. Moslems number now in the world about 201,000,000. Of these some 167,000,000 are under Christian rule and 34,000,000 only under Moslem Governments. The region which to-day speaks of large conversions from Islam to the Faith of the Gospel is that comprised within Sumatra and Java. There are some 100,000 such converts there, and 200 missionaries are at work, chiefly of Dutch Missions. The closed lands are Afghanistan and the greater part of Arabia. Christian missionaries have temporarily been withdrawn from Mesopotamia and Persia, both Moslem lands, after gallantly remaining at their posts as long as possible.

VII. *China*.—The missionary has of late years gained enormously in the affections of the Chinese race. Years of self-denying labour have at length borne fruit, and no doubt the effect of Medical Missions has had a large share in this progress. But not exclusively so. The Christian missionary as such is highly respected and more trusted than any others. But China moves slowly. It possesses a fine moral code, but what is needed is moral power, the power of the Spirit known and claimed. A wise observer has stated that the outlook of the Chinese has really been confined to the family: and it is this which explains the widespread corruption of all public life. Life in a sphere larger than that of the family is too much an opportunity of becoming wealthy. Slowly but surely, however, China advances to nobler ideals, politically and spiritually.

Japan.—It has often been stated that Japan suffers from a species of intellectual indigestion. The West has poured itself too fast into this great country: at least, its learning has perhaps been too suddenly accepted. And in the sphere of religion it has had at present a disintegrating effect. The results of a census of religion among 5,000 students in Tokyo will explain what is meant. The result was as follows: 8 professed themselves Shinto, 50 Buddhist, 60 Christian; 1,500 atheists, 800 agnostics, the rest of no religion. Christians in the West can never be content with having destroyed religions. It may be a necessary and a painful step, but altogether an intolerable one if the Truth of Christian Revelation does not occupy all the ground.

VIII. *Australia*.—A most gratifying reform achieved in 1916 in the Church in Australia was the amalgamation of Missionary Societies under one organisation to represent the whole Church. It meant great self-denial upon both sides, and the Church in other regions rejoices at the result. For years there have been two main organisations working side by side but distinct from each other: the Australian Board of Missions, and the Church Missionary Association. The latter has now consented to become part of the Australian Board; but it keeps its own organisation and manages

its own affairs, not outside, but within the official Church organisation, and joining in the affairs of the Board. For the first time also five women members have been elected upon the Board.

IX. Lastly, and by no means least, Christendom looks for a great advance of the Eastern Orthodox Churches. Especially does it look to Russia. An Empire whose people can give up intoxicants for a noble cause must be capable of great acts for the cause of the Faith. The war must have opened the eyes of this great people, finally convincing them that no nation can live spiritually unto itself, or cease from being adaptable, or be unable to see things spiritual through the eyes of others in a sympathetic manner. Christendom looks for the co-operation of the Eastern Churches with the Western in a more forceful evangelisation of the world. Many of the weightiest problems of such evangelisation seem to await the coming of this new power *as a world force*. If the dream comes true, no Church so much as the Anglican Church will rejoice with such unfeigned gladness.

The times in which we live are grave enough, but they are very good times in which to live. Posterity may come to envy this generation for its wondrous opportunities, its cleansing sufferings, its mighty duties. It is for us to rise to the height of such duties and to be counted worthy to have lived in such times. "Our help cometh from the Lord who hath made heaven and earth." Our Captain is He Who died for us, Who ever lives, Who ever maketh intercession for us. The Spirit that dwells within us is He Who maketh intercession with groanings that cannot be uttered. It is impossible that faith and hope and love should not grow in such a Faith.

H. H. MONTGOMERY (Bishop).

Much valuable aid has been given for the compilation of this survey by the article in the *International Review of Missions*, by Mr. J. H. Oldham, for January 1917; and also by the new volume of the *History of the C.M.S.*, by Mr. Eugene Stock.

SERVICES OF DISMISSAL IN S.P.G. CHAPEL.—An unusual number of Dismissal Services were held during 1916, in all twenty-eight. The number of missionaries thus “dismissed” was sixty-five. But of these twenty-five were “dismissed” in St. Margaret’s, Westminster, by kind permission of Canon Carnegie, Bishop Morley officiating. It means that in S.P.G. Chapel twenty-seven services were held for forty persons. Constantly a congregation assembled for the blessing of one missionary. The Staff of the House is glad to give such spiritual help.

Confirmations in S.P.G. Chapel.—The Bishop of London has given his consent to the use of S.P.G. Chapel for the Confirmation of soldiers suddenly called to the Front or for some other good reason. The result has been that messages reach the House from chaplains at hospitals or depots requesting leave to bring down two or three soldiers. No privilege is more welcome. Bishop Montgomery held three such Confirmations, confirming seven soldiers. Some were most touching cases of grievously wounded men; some were going to the Front. Bishop Bury utilised the chapel once and confirmed ten soldiers.

THE CANDIDATES’ DEPARTMENT.—During the year the Society’s students who have joined the military forces of the country have reached the number of forty-seven, including eleven whose lives have been given in the country’s cause.

Four of the students have been accepted during the year for work overseas by the Board of Examiners, making a total of seventy-nine since the inception of the work.

S.P.G. MISSIONARIES, 1916 (MEN).—During the year 1916 the Board of Examiners met on eight occasions. Twenty-one men were recommended to the Society. Of these two were graduates of Oxford, four graduates of Cambridge, seven were graduates or licentiates in Theology of Durham (including one of St. Augustine’s College, Canterbury, one from Dorchester, one from Burgh, and two from Warminster), three graduates of London University, and one was a graduate of Leeds, and (in addition to the one who had proceeded to Durham) one was a student of St. Augustine’s College, Canterbury.

Of the twenty-one, nine were accepted for India—viz., the Rev. A. Gray Buchanan for Assam; Mr. F. Hodgkins for Chota Nagpur; the Rev. W. F. Ireland and the Rev. A. H. Tilt for Delhi; the Rev. F. V. Dawkins and the Rev. C. E. O. Finch for Madras, the Rev.

F. B. Jameson and the Rev. P. C. Kerslake for Tinnevely ; and Mr. A. R. Messer for Rangoon.

Three were accepted for the Far East—viz., the Rev. R. D. Lord and the Rev. J. Wellington for Shantung ; and the Rev. G. Laurence for Corea.

Four were accepted for Africa and Madagascar—viz., the Rev. L. Webster for Bloemfontein ; Mr. C. C. Stewart for St. John's, Kaffraria ; and the Rev. W. S. Klamborowski and the Rev. R. C. Kelham for Madagascar.

Four were accepted for Canada—viz., the Rev. J. D. Granger for Algoma ; the Rev. F. Rutherford Rawle for Calgary ; the Rev. W. G. Hayward for Edmonton ; and the Rev. E. H. L. Lee for Qu'Appelle.

The Rev. T. W. Lambert was accepted for work in Antigua.

WOMEN CANDIDATES FOR WORK ABROAD.—During 1916 sixteen women workers went abroad for the first time, as compared with twenty-one in 1915.

Eleven Teachers.—Five to India—Miss Ellen Blackwood Kenyon, Miss Margaret Cramphorn, Miss Iris Tripp, Miss Irene Mowll, and Miss Adeline Hawley (teacher of music) ; one to Madagascar—Miss Annie Lorimer Oliver ; three to Africa—Miss Marjorie Andrews, Miss Phyllis Mann, and Miss Annabella Gillespie ; one to North China—Miss Mary Sayer ; one to Burma—Miss Rose Sellwood.

Five General Workers.—Four to India—Miss Lily Norton, Miss E. Maud Stuttaford, Miss Nora Karn, and Miss Lilian Henderson ; one to Japan—Miss Stuart-Menteth.

SUMMARY.—There are in all 1,406 missionaries on the Society's list. *Ordained* (including nine Bishops) 1,006—in Asia, 386 ; in Africa, 299 ; in Australia and the Pacific, 43 ; in Canada and Newfoundland, 181 ; in the West Indies and Central and South America, 85 ; and 12 chaplains in Europe. Of the ordained missionaries 306 are non-Europeans—196 in Asia ; 104 in Africa ; 2 in Guiana ; 2 in Canada ; and 2 East Indians in Trinidad.

Laymen, 35—25 in Asia ; 3 in Carpentaria, Australia ; 1 in Polynesia ; 4 in Canada ; and 2 in Africa. Of these 11 are non-Europeans—8 in Asia ; 2 in Carpentaria ; 1 in Polynesia.

Women, 365, of whom 63 are non-Europeans—295 in Asia ; 60 in Africa ; 8 in the West Indies ; and 2 in Canada.

During the year 11 licences or permissions to officiate on the Continent of Europe were granted on the Society's nomination by the Bishops of London and Gibraltar.

There are also in the various Missions about 3,000 Lay Teachers, 3,200 students in the Society's Colleges, and about 67,000 children in the Mission schools in Asia and Africa.

INCORPORATED MEMBERS.—Three hundred and fourteen persons were elected by ballot and added to the roll during the year 1916, i.e. 287 clergy and 27 laymen.

THE SOCIETY'S INCOME, 1916.

TREASURERS' ACCOUNT WITH COMPARATIVE STATEMENT.

[illegible]

* This item includes gifts amounting to £5,641 to be invested, the income only being available for expenditure.

† Included in these totals are sums of £20,996 in 1916 and £19,167 in 1915 contributed by our Affiliated Special Funds.

THE SOCIETY'S INCOME.—That it should be the Society's privilege to place on record for the year 1916 increased receipts, as compared with the previous year, under every item of revenue except Legacies, which are of a too fluctuating character to be taken into account for the purpose of marking progress, testifies to a remarkable degree to God's blessing upon the Society's work through a year of unexampled difficulty and trial.

The full total of the income for 1916 fell short of the income for 1915 by £11,963; but, as the decrease under the head of Legacies amounted to £17,847, it follows that all other items added together increased by £5,884.

The General Fund, which naturally claims our first attention, will be viewed with heartfelt thanksgiving. Not only has the General Fund increased, under the head of Subscriptions, Donations, Collections, &c., by £815, but it has reached to within £500 of the high average for the past three years, and only once (in 1914) has the amount received been exceeded. With the exception of a gift of securities valued at £2,952, no exceptionally large individual contribution was received in 1916; but a very large number of gifts were sent to us in response to our special appeals, and these gifts in the aggregate have more than made good all shrinkage in normal income which national conditions rendered inevitable. Rarely in a single year have so many special gifts flowed into the Society's treasury, and never in living memory has the Society been the recipient of such a volume of expressions of affection for the S.P.G. and devotion to its world-wide work.

Amongst the many special efforts which, in 1916, were made to enable the Society to keep its pledges to the dioceses overseas which look to the S.P.G. for support, may be mentioned the £20 *Scheme*, which had given us £6,400 in 1915. Through this effort the Society received in 1916 a further sum of £3,220, thus nearly completing the total of £10,000 aimed at in the two years. A scheme initiated by one of our King's Workers resulted in gifts of £5 Exchequer Bonds amounting to upwards of £1,000. Many friends of the Society heartily welcomed and acted upon the suggestion that gifts of War Loan Securities would help the State and the Society jointly, and the General Fund has considerably benefited by such gifts. Our King's Messengers have, in addition to their contributions to Special Funds, raised their contributions to the General Fund from £5,263 in 1915 to £5,803 in 1916. The General Fund also shared in the Women's Jubilee Thankoffering, though a considerable portion of the £3,000 raised was ear-marked for special purposes. Perhaps the most self-denying efforts of all have been made by Missions themselves, the remittances from abroad in many cases being accompanied by most touching messages of thankful appreciation of the Society's fostering care and support of the Church beyond the seas.

Our *Medical Missions Department* has been greatly cheered in its work of mercy by the increased support which it has received in 1916. As a detailed account of the income of this Department will be found on page 50, it will suffice to say here that the total increase over 1915 amounts to £1,218.

Our *Special Funds*, which comprise a great number of separate accounts (including those of our Affiliated Special Funds) and innumerable special missionary objects, have, except under the head of Legacies, risen above the level of 1915 by £3,188.

Financially, as in other respects, the S.P.G. has, in 1916, been wonderfully blessed, and all special efforts made in the hope of

maintaining existing work have, by God's help, succeeded beyond our most sanguine anticipations.

THE CANDIDATES' FIVE SHILLING FUND.—The proceeds of the Candidates' Five Shilling Fund amounted to £3,056 for the year 1916. This is exactly £300 less than was subscribed in 1915. The drop is attributable largely, if not wholly, to the war. The explanation may be found in the falling-off of subscriptions of £20 and over. The money as heretofore has all been given spontaneously without any application beyond the little note which appears quarter by quarter in the Quarterly Intercession Paper. £2,950 has been voted by the Committee of the Fund to the Candidates' Department to provide studentships for men and women desiring to devote themselves to missionary service. The Secretary's report will be found in the *Mission Field* for April 1917.

THE QUARTERLY INTERCESSION PAPER.—The circulation of the *Quarterly Intercession Paper* amounts to 121,500, including the Large Type Edition (1,450) and the Shorter Edition (14,000).

Those wishing to receive the Paper, or to contribute to the Fund, should write to Canon Bullock-Webster at 1 All Hallows Lane, Upper Thames Street, London, E.C.4.

THE "KING'S MESSENGERS" AND YOUNG PEOPLE'S WORK.—Once again there is abundant cause for thanksgiving in reporting on the progress of the work in 1916.

Money is not the only gift members have to bring, but in these days it may be a real indication of the life and devotion of a branch, and though the full details are not yet available, we can report that the gifts have reached a total of £7,198 (£467 more than ever before). The gifts to the General Fund are £5,803, an increase of £540 on any previous total.

Four hundred new branches have started since the outbreak of war, and the entries for the examination on the Syllabus were higher in 1916 than in any other year, 3,860 members entering from 306 branches.

A special effort made by Secondary School girls to increase their contributions to S.P.G. resulted in a gift of £830.

Once again no report can be given of Boys' School work, as Mr. Brough and Mr. Bartholomew are still serving as Chaplains to the Forces.

The Commission of Inquiry appointed by the Standing Committee has made its report on Young People's Work, which has been adopted by that Committee. The Report emphasises the great importance of Young People's Work, and aims at securing that it shall be as integral a part of S.P.G. as any other part of the work, and that it shall be drawn into closer touch than before with the rest of the Home Organisation of the Society. It also recommends that some name shall be adopted for the Committee and Department which shall indicate that it is charged with *all* the Young People's Work of the Society as well as with the organised work of the King's Messengers Association.

Much work is done, and very much more work waits to be done by the Department, in addition to the work for King's Messengers; and, in the past, some workers have hesitated to avail themselves of the help of this Department under the impression that it was only given to those wishing to start branches of the King's Messengers.

Lastly, we have to report that Archdeacon Conybeare, to whose keen and wholehearted help and service K.M. owes so much, has resigned the Chairmanship of the Committee owing to distance from town. His place has been taken by the Bishop of Dover, and anyone who knows the Bishop will know what help and inspiration for the work may be looked for from his leadership.

OUR LITERATURE.—We find that during the past year there has again been a further decrease in the sales of our literature—this is largely due to the dropping of evening meetings.

The Society continues to limit as far as possible the publishing of new books while the price of paper and cost of printing is so high.

The following list gives the new literature published since our last report :—

Kalipa, the story of a Kaffir boy, price 1s. net (paper), 1s. 6d. (cloth).

Romance of South African Mission, by the Bishop of Lebombo, new and revised edition, price 6d. net.

Conquests of the Russian Church, by J. A. S. Edwards, price 1s. (paper), 1s. 6d. (cloth).

The Call of Empire, consisting of eleven of our popular booklet series, bound in cloth, price 2s. net.

New Pamphlets.—"Missionary Lesson Outlines on India," 16 pp. (price 1d.); "Bible Studies from the Book of Revelation," by the Rev. B. K. Cunningham (price 9d. net); "Five Outline Lessons on the Book of Revelation" (price 2d.).

Intercession Literature.—"A Simple Litany for Missionary Intercession" 4 pp. (price 1s. per 100 copies); "Cycle of Prayer and Praise, 1917" (price 2d.).

New Leaflets.—"The Two Greatest Wars" (4 pp.); "Missions and the War" (4 pp.); "The Church Abroad" (4 pp.).

The complete catalogue of the Society's literature has been revised, and will be sent to any person sending penny stamp for postage.

The circulation of our magazines has kept steady, and only *Church Abroad*, the small illustrated monthly, has decreased materially. We hope to see this magazine again in demand. We are pleased to note that our official monthly, *The Mission Field*, is being adopted as a parish magazine inset. We are able to supply unstitched copies of the text matter at a reduction for this purpose. Full particulars will be sent to inquirers.

To encourage the reading and giving of missionary books, the Society decided to reduce the price of the existing stock of certain books. The list of such books and particulars will be sent to any person inquiring for it.

LENDING LIBRARY.—During the year 1916, 2,564 books have been borrowed from our library, which now numbers over 7,000 volumes. Our revised and very much enlarged catalogue

has been issued, price 5*d.* post free, and this has proved of great service to those readers who possess a copy.

BRILLE SECTION.—In this section of the library there has been an increase in the circulation of books, 770 having been sent out. Several readers have dropped out in order to give their whole time to work for soldiers, but many others have joined the library, making a total now of eighty-one members. A good Braille writer (voluntary) is needed to help in this section.

KING'S WORKERS.—This has been a year of sifting ; a certain proportion of King's Workers have fallen off, but by far the greater number have been enabled to do good service in innumerable directions, in spite of increasing difficulties.

The work of our Special Sections continues in varying degrees. For obvious reasons the Map Section is practically in abeyance ; the Newspaper, Texts, and Typing Sections have been busy, and even the Placard Section, chiefly used by Exhibitions, &c., has not been altogether idle.

May we be enabled so to use our present limited opportunities as to be ready for the greater openings for which we all hope in the future !

BRILLE DEPARTMENT.—The past year has produced three new Braille writers, all of whom are learners ; our standard of efficiency is, nevertheless, distinctly higher than it was last year. Our output in library books has been very small, owing chiefly to the temporary collapse of our binding staff.

The circulation of the Quarterly Intercession Paper and of the *Braille Mission Field* has varied but slightly ; both papers are considered by those who receive them to rank high among Braille publications.

Our Study Circles for the blind are much appreciated, the number of Circles being only restricted by the lack of duly qualified " sighted " leaders.

The work of correcting devolves, at present, entirely on headquarters. We are hoping to meet with two thoroughly qualified and certificated correctors, whose Braille work is up to the standard required by the National Library for the Blind, and who will volunteer for this work.

MISSIONARY STUDY DEPARTMENT.—During the past year there has been a considerable increase in the number of study circles held, the preparation for the National Mission and its extension in the Missionary Campaign having proved a great stimulus in many parishes where the method was till then untried.

The Hon. Travelling Secretary conducted sample circles and addressed meetings in this connection in various parts of the country, and Training Circles for intending leaders were held at S.P.G. House in the summer and early autumn. In addition a Study School was held at Malvern in August for the dioceses of Worcester, Birmingham, Lichfield, and some others.

The following publications have been issued under the auspices of the Study Department :—*Studies in the Book of Revelation* (9d.) and *Outline Programme* (2d.), by the Rev. B. K. Cunningham ; *Outline Programme* (1d.) and *Suggestions to Leaders* (6d.), for the use of S.P.G. Circles on “The World and the Gospel” (J. H. Oldham) ; a text-book for Study Circles on the Russian Church and its missions, entitled *Conquests of the Russian Church* (1s. 6d. and 1s. net), by J. A. S. Edwards, with preface by Rev. F. W. Puller, S.S.J.E., together with *United Study Programme* (1d.) and *Suggestions to Leaders* (4d.).

MISSIONARY PREPARATION UNION.—*Men's Division.*—The work of this Division may be said still to be in abeyance. Only two new members joined in 1916, and the number on the roll is reduced to fifteen. Four of the members have given their lives for their country during the year, and fourteen out of the fifteen survivors are in the Army.

Women's Division.—The year has been one of strenuous work. Six members have been in the war zones, two of whom are nurses on hospital ships, and nearly all are employed on definite national work if they have left school. Five sailed to S.P.G. Missions in India, China, and South Africa. The Division numbered on December 31, 1916, 245 members.

MISSIONARY EXHIBITIONS DEPARTMENT.—The war still hinders the organisation of large Exhibitions, but in 1916 there was an increase on the preceding year in the number of smaller efforts.

Nineteen short-period Exhibitions were held, and five representations of Medical and Zenana work. Ninety-three sets of curios were sent out for parochial gatherings, and 226 sets of costumes for Tableaux, Pageants, and Missionary Plays.

The Department also was very busy for some months in the summer in the production and superintendence of the very effective and instructive Tableaux given thrice daily for a fortnight in June by helpers from London parishes and S.P.G. workers, in the churchyard of St. Martin-in-the-Fields, Trafalgar Square. Nearly 25,000 persons witnessed the Tableaux, and there is abundant evidence that the scenes of the “Battles of the Cross” in bygone days and in the present age, accompanied as they were by beautiful music and by the powerful appeal of the lecturer, Rev. B. Mahon, were of considerable help in the preparation of London for the National Mission of Repentance and Hope.

A similar effort on a still larger scale is being projected by the London Diocesan Board of Missions, the Department to lend its aid as before, so soon as national conditions will allow.

TRAVELLING EXHIBITIONS.—The Travelling Exhibitions during 1916 visited over sixty parishes, principally in the dioceses of Lichfield and Bristol, and in Wales. Several tours that were contemplated were not carried through, owing to various reasons;

but the prospects for next year are distinctly brighter, when tours are being arranged in the dioceses of Llandaff, Lincoln, Gloucester, Sheffield, and York. Active preparations for these tours are already going ahead. Organising Secretaries are requested to apply to the Assistant Secretary for Home Organisation, S.P.G. House, for the use of the Travelling Exhibitions.

FEDERATION OF JUNIOR CLERGY MISSIONARY ASSOCIATIONS.—At the London Conference in May the Rev. C. W. Alington, Vicar of St. Barnabas, Little Ilford, was elected Chairman of the Federation. Later in the year the Rev. W. H. Roseveare, East Haddon Vicarage, Northampton, was chosen to fill his place as Hon. Secretary.

Numbers have still further decreased in the last year; and for lack of home-members as well as through the consequent extra pressure of parochial work, some Associations have had to suspend their work for the time being; the Autumn Conference, too, was abandoned. But some good work has been done by three Associations in relieving the S.P.G. Diocesan Secretary of deputation-work; and a fourth has planned to do similar work in 1917.

Twenty-eight members have gone out this year to the Mission Field, while nearly 250 are acting as C.F. One result of the last London Conference was that the Central Board of Missions were put into touch with the chaplains, and brought before them missionary work as the primary work of the Church—the subject specially set forth in the Rev. W. Temple's pamphlet, "The Call of the Kingdom." It is hoped that many may answer to the Call when the war is over; and plans are now being made to cope with the special opportunities which Peace will bring. Meanwhile, the J.C.M.A. have been taking their share in the National Mission and its call to deepen the missionary spirit. Study Circles and K.M. work are claiming more attention and preparing soundly, we hope, for future calls. The London Conference for 1917 has been dropped; provincial gatherings taking its place.

LAYMEN'S MISSIONARY ASSOCIATIONS.—The London and Southwark Associations have jointly held monthly meetings at S.P.G. House on the second Thursdays, the leading features being a service of intercession in the chapel followed by an address. An increasing number of members have been called to join H.M. Forces, and three of these, J. M. Attlee, Herbert Crichton, and J. F. C. Bashforth, have laid down their lives for their country. We regret to record the decease of four others, J. W. Darton, C. R. Baker-King, W. A. Beaumont-Edmonds, and J. Stacey.

The Manchester and Aston Associations have held their meetings as usual. The Bristol Association report an increase in the number of their members, and have held very successful quarterly meetings.

FOREIGN STAMPS.—With much sorrow we record the death of the Rev. C. J. Johnstone, who acted for several years as honorary

agent for the sale of foreign stamps on behalf of the Society. Mr. Johnstone has been associated with the Society for very many years. In 1900 he became Organising Secretary for the Arch-deaconry of Salisbury, and some few years afterwards, while the Society's stamp business was in its infancy, Mr. Johnstone took it up and developed the industry to its present extent. We are glad to say the wide support given to Mr. Johnstone is now being extended to his successor (Miss M. Dalton, 86 Arthur Street, Chelsea). Gifts of stamps, collections, and miscellaneous stamps, more particularly those of higher values, old issues, and war stamps, will be welcomed by the honorary agent at that address.

IRELAND.—The year 1916 will always be sadly remembered as the year of the Sinn Fein Rising, in and around Dublin.

Our annual meetings and sermons were all arranged, but of course had to be postponed, as we were under martial law. Owing to our communications, postal and telegraph, being cut off with the outside world, one of our speakers, Lord William Cecil, now the Lord Bishop of Exeter, arrived to find our condition a very grave one—Dublin was still smouldering. Our funds have, however, kept up remarkably well. The General Fund received £2,929 4s. 5d., Special Funds £2,239 0s. 4d. (showing an increase over the amount for 1916), making a total of £5,168 4s. 9d. Legacies were very few and amount to £168 4s. 6d. The Committee of Women's Work collected for the General Fund £382 7s. 8d. and for Special Funds £121 12s. 4d., making a total of £504. £65 2s. 3d. was the amount contributed by ninety-nine supporters for the Candidates Fund; £51 4s. 6d. was also paid direct to the London office by Irish contributors. Once again, though with greater difficulty, the Western Canada Fund was able to claim the £50, given on condition that Ireland raises £200 more. This may have been owing to the idea that Canada was doing very well as a result of enlarged operations in connection with the war. There are 348 Incorporated Members and 203 Members.

ARMY MISSIONARY ASSOCIATION.—The year 1916 again shows an increase in the support given by the Army to our cause, due chiefly to the great growth in numbers of our Army.

Though this increase of support was hoped and prayed for, it is a matter for deep thankfulness and encouragement that the upheaval in the lives of those so suddenly transferred from civilian to military life has not distracted their thoughts from the needs of the Church overseas.

The S.P.G. received from the Army in 1916 through the A.M.A. the sum of £949 11s. 11d. as compared with £524 18s. 10d. received in 1915.

The B.E.F. in France sent over £162, a splendid proof of loyalty to the venerable S.P.G. Amounts were also sent to other missionary societies and special funds.

Hon. Sec., Rev. M. W. Churchward, A.C.G., 38 The Chase, Clapham, London, S.W. 4.

NAVAL BRANCH.—We regret that during the period of the war it is not possible to give any detailed report. The total amount subscribed during 1916 was £126 5s., as against £152 12s. 8d. in 1915.

Archdeacon H. S. Wood, D.D., R.N. (Chaplain in Ordinary to the King), Chaplain of the Fleet.

Rev. J. D. Dathan, R.N., Honorary Secretary.

HOMES OF REST.—*ST. EDWARD'S, WORTHING.*—We call special attention to this most valuable Institution: we find it quite indispensable for the work of the Society. It is the Home of Rest for our returned missionaries on furlough: all who know it, bless it. Miss Cochrane, to whom, in company with her mother, we owe this property, is in failing health. The Society is aware of this, and proposes to support her to the fullest extent with such assistance as is needed. The chief need is an endowment. At present a sum of £1,000, is in hand for the purpose. Not less than £5,000, is needed. It is probable that a Committee will be formed definitely to aid Miss Cochrane in every way. Just before going to press we learn that the Government is likely to take over the hostel as a hospital during the war.

"OAKENROUGH," HASLEMERE.—Mrs. Tritton Gurney continues her self-denying work as in past years.

ST. JOHN'S HOUSE OF REST, MENTONE.—This House is closed during the war.

ST. LUKE'S HOSTEL.—This Hostel is not only a priceless benefit to the poor clergy at home, but has been a boon to missionaries as well. The highest medical skill is at the disposal of the clergy and their families.

ST. BARNABAS' HOMES.—This celebrated resting-place for infirm clergy continues its good work. There are three residents at this time connected with the S.P.G., all most worthy of generous treatment by the Church. They are free guests, and are likely to end their days in St. Barnabas.

THE OVERSEAS WORK OF THE S.P.G.

1. *Help from *Dioceses Abroad.*—One of the most delightful experiences of the last two years has been the assistance given by dioceses in every continent by savings. Appeals were made to them to save lest the Home income might prove insufficient, and to do so by increased self-support among the faithful. At the same time we begged dioceses to make it a point of honour not to retire from any station, nor to withdraw any of the too few missionaries, whether men or women. Most thankfully we may report that both these results have been attained. Where all have done well it is invidious to mention any without a complete list of such savings, but such a list will appear in our magazines; but it may be permissible to give one example of the spirit that animates all. The diocese of Newfoundland gave its Lent savings to the S.P.G. as a special gift during war time, a sum of £730, and the cheque was accompanied by a letter stating that no local causes had in any way suffered from this voluntary act of self-denial.

INDIA.—As we survey each country in so brief a report as this it will be obvious that often we shall be unable even to mention the names of dioceses where noble work is being done by them. All the facts that are given are but specimens, nothing more, including the work of women as well as of men.

Calcutta.—In this diocese the Society's grants are wholly expended on Indian clergy and workers in poor areas, and in no case in any diocese is the whole salary of an Indian paid by the Home grant. There are fifty-five churches and chapels so supported, with 2,500 children in the schools. Bishop's College in Calcutta, one of the finest institutions in India, recently placed by the Society in the hands of the Episcopate to be utilised entirely as a central Theological College for the Indian Church, has not yet begun its new career, for a Principal and Vice-Principal are still to be found. Calcutta

Assam.—This new diocese with its first bishop is developing admirably. It only cries aloud for three or four more European clergy, and no appeal ought to be more quickly responded to. The planters all over Assam are increasing their interest, and are prepared to subscribe largely. They now take a practical interest in the work of the Diocesan Council, and show it by travelling long distances to attend the meetings. There has also been an important conference with other Missionary societies working in Assam, and agreement has been come to in order not to overlap in a region where there is superabundant room for all. At the same time it has been made perfectly plain that any Church or Mission is completely at liberty to go anywhere in order to minister to it Assam

Assam own people. The planters, too, give good reports of their Christian coolies. Indeed, in regard to the latter a very important step has been taken. It has been determined to teach them in the Hindi language and not in Assamese as heretofore. The mass of these labourers on the tea plantations come from Chota Nagpur, where the language is Hindi.

Lahore *Delhi* (Lahore Diocese).—St. Stephen's University College has never been more full. With sorrow we have, however, to record that Mr. Lawrence, one of the staff with a fine reputation, has been killed at the Front. Professor Rudra still holds the post of principal, and has just completed thirty years of splendid service in Delhi as professor and principal. His son is earning high praise at the Front for his administration of work in the Y.M.C.A. huts, and his daughter at this time is being educated in England; and it is interesting to note that the son of the Archdeacon of Lahore is also doing good work in Y.M.C.A. huts in France. At St. Stephen's Hospital there are great changes. Miss (Dr.) Muller, who for years has been a splendid head of the hospital, and received the Kaiser-i-Hind Medal, has been compelled to retire after thirty years' noble work, and has been allotted a pension. We have also lost Dr. Agnes Scott, who has been the author of important monographs on Indian diseases. She has accepted a Government appointment. Women's work is being finely done also in Delhi, and St. Mary's School is being enlarged, and has a greater future than ever. Moreover, the superintendence of women's work has now been placed in the hands of the head of the Women's Community, Miss Gould. We are rejoiced to hear it, as indeed is Canon Allnutt, who is still head of the whole Delhi Mission, one of the largest and most complete that the S.P.G. is permitted to support.

Bombay *Bombay*.—We rejoice to hear that three more Indian deacons are to become priests, and that one of them is to assist the Moslem Mission in Bombay, of which the Rev. A. J. P. French is the head. In this diocese the strong S.P.G. centre at Ahmednagar is presided over by Canon King, who has to our joy wonderfully recovered his health. Canon Rivington, of course, continues his noble work at Betgeri, as he has done for a great many years; an honoured name in India. Another member of this diocese, the Rev. A. L. Bradbury, has begged to be allowed to take his furlough as a war-worker in the Bombay Harbour, after five strenuous years in Bombay City. We trust his health will not suffer. It is impossible to pass over the devoted work of the Women's Community at Ahmednagar, at St. Monica's. Their labours extend through dozens of villages, and it is fine and instructed evangelistic work.

Madras *Madras*.—St. Ebba's School, Madras, continues to prosper. Last summer they were able to take in an extra piece of the Sullivan's Gardens compound, so that the space for games is considerably enlarged; but they are still very short of class-room accommodation.

The tone of the school is high, and there is a growing appreciation among the pupils of the Sacramental privileges of the Church, and a stirring sense of vocation among several old girls to devote their lives to evangelistic work. It is an important and urgent matter to know how to meet and provide for this new and growing sense of vocation, and how best to give them scope for responding to it.

Madras

Tinnevely.—Bishop Waller has lost no time in carrying out his desires for a more and more independent Indian Church. He has created a Diocesan Council on which Indians are largely represented, and by which almost all diocesan affairs are regulated. The *Diocesan Magazine* will have in future a strong section written in Tamil. The same tendencies are of course visible in the Telugu Mission, of which Nandyal is the fine centre. Educationally, in South India, Trichinopoly College is one of the leading institutions, and under its devoted principal and his staff all goes well there.

Tinnevely

Lucknow.—Cawnpore is the centre chiefly aided by the S.P.G. Among the good work done here, one remarkable fact must be chosen for mention. For years there has been a flourishing industrial Mission attached to the Brotherhood. It was necessary for providing work for Indian Christians who were unable to gain admittance into the general factories and works in the city. Now all is changed; there is no longer any need for this department; Indian Christian workmen have gained their position and are eagerly sought after by all employers of labour. Nothing could therefore be more gratifying than the closing of the Mission industrial shops for the above reason.

Lucknow

The Bishop of Lucknow forwards a report drawn up by Canon Fisher, in the course of which he writes:—

“What all supporters of Missions want to know in these days is the effect which the war is having on our work. After upwards of two years one can say that as regards direct effect in the acceptance of the Message there is no appreciable difference made by the war: the war is not, even now, a very present and real fact to the mass of the people, nor does it interpret itself to them as a breakdown of Christianity. Mr. Frank, for instance, reports the progress of his evangelistic work in the villages as ‘going on as usual,’ and Mr. Blair, at the other end of the diocese, has found a distinct advance in the number and attention of his hearers. In the Moradabad district Mr. Crosthwaite has had the privilege of baptizing thirty-six persons in the past year.

“But there are other ways in which the war has affected us: the Cawnpore Brotherhood has only five priests (presently to be four) to do the work of nine, and the women’s work at their out-station at Ghatampur has been held up for most of the year owing to the dangers of sea travel. To our Indian congregations the war has opened up new spheres, and a number of our young men have found their way to Mesopotamia—a few as combatants, but mostly as carpenters, engineers, etc. One of the Government chaplains from this diocese has reported holding services for Indian Christians there, and the question of sending an Indian priest for this work is, we understand, now being considered by the Metropolitan.”

Chota Nagpur.—The great problem here has already been referred to in general terms. The diocese of Chota Nagpur bears the responsibility of superintending the Gossner Mission. The

Chota Nagpur

German missionaries have been sent back to their own country, nor is it likely that they will return. Meanwhile, till the war ends, Bishop Westcott and his staff are watching over the interests of 100,000 Christians of this Mission, guiding the forty Indian pastors and the dozens of catechists; they also watch over all accounts, and especially those in connection with Government grants to 300 schools. Eight members of the staff are specially engaged in this work, and have succeeded well in a very delicate task.

To sum up in regard to India, though we have not even referred to numbers of centres and institutions in connection with the S.P.G., such as the Dublin University College at Hazaribagh, the Deaconess' Institution at Lahore, the work in Madras itself; all we can do is just to touch on great problems. For example, educated Indians are appealing for a "conscience clause" in all Government-aided schools, and on exactly the same lines as exist in the British Isles and in all the Dominions. The claim for religious liberty goes straight to the heart of every Englishman. No man should be forced to be instructed in a religion in which he does not believe. Why should such a man's children be compelled to listen to Christian instruction, especially where there is no alternative school for the children? On the other hand, there is the immense system of education built up by the Government by the aid of Mission schools which are supported from home as indirect but strong forces for evangelisation. This is the new problem. We may be sure that the Indian Episcopate, in company with all other missionary statesmen, will solve it wisely. Again, there are "mass movements." They inspire us with hope; how could it be otherwise when tens of thousands flock to the Church? Yes, but reflect on the perils too: few can read or write; it means an enormous mass of very ignorant members of the Church saturated with their old Animism or debased Hinduism. If large numbers of such simple peoples are baptized, are we establishing what may be a kind of "baptized paganism"? Probably the answer is that these people need very careful and very prolonged shepherding by a large staff of missionaries. On the other hand, there is the spectacle of an India more and more saturated with Christian morals and with secret Christian belief: secret, because men dare not be baptized and break with their caste. So baptized paganism may be confronted with a kind of "unbaptized Christianity." What problems! Once more, there are districts where there is the danger of creating a caste Christianity. Large numbers of one caste become a Christian community and may refuse to have any communion with another caste as with something common or unclean. Is "caste Christianity" true Christianity? If not, what is to be done?

The Moslem question: What will the war effect? The sixty millions of Moslems in India must be affected by the close union they have effected with Christian soldiers, and very noble Christians many of them are. The Territorial regiments in India have had an immense effect on Indians generally, since, of course, these regiments are filled with every type of educated men. Moreover, these regiments have learnt what Indian Christianity is, how worthy

of respect. They will come back with a very different view of Missions from that which used to obtain—namely, that an Indian Christian is a spoilt Indian. Can contact with the Spirit of the Lord Jesus Christ spoil any one? **Chota Nagpur**

Burma, the diocese of Rangoon, is in the Indian Province as well as the diocese of Ceylon. We wish we had space to chronicle events here. There is only room for one reference to each diocese. In Ceylon, St. Thomas' College, Colombo, is worthy of all support, as the diocese strives to erect the new buildings and carry on its famous work. In regard to Burma, it is delightful to be able to announce that the veteran missionary, the Rev. G. Whitehead, has returned to this old diocese in order to fill the vacancy in the Car Nicobar Islands. **Burma**

Singapore and Borneo.—There is a wonderful romance about this south-eastern angle of Asia. Under British rule or protection the Malay States have become one of the richest parts of the Empire. Singapore is one of the great strategic points. Beyond it eastward lies Sarawak with its unique history connected with the Rajahs Brooke. Alongside of it is a great British chartered company in North Borneo. Northward again are the Philippines, United States Possessions, where Bishop Brent is a great factor for Christian civilisation and just rule. It would appear that ere long these regions might be united in an ecclesiastical province, or at least formed into federation in a conference periodically held. All three dioceses have the same problems: tropical climate, Chinese and other labourers, scattered white men with all their temptations, aboriginal races to be wisely civilised through the Christian Faith. The diocese of Labuan and Sarawak has lost its bishop through ill-health. **Singapore and Borneo**

China.—This Empire has now broken with Germany and sides with us and our Allies. It is sending labour battalions from Shantung to the various war fronts. And these men are to be accompanied by clergy and ministers and civil servants, all of whom know the requisite languages. The Bishop of Shantung is doing his utmost to help the Government in these questions. Some of his clergy are now at the Front. Some have been told off to succour the wives of the labourers, receive their husbands' pay, and prevent distress. A similar movement is taking place in Corea. In that diocese Bishop Trollope has suggested to the Ambassador in Tokyo that all the younger ordained missionaries should be freed for some form of war work. We understand that the younger French missionaries in Corea have been sent back to join the ranks of the French army, and our own Bishop feels that no stigma must rest upon Englishmen who happen to be living out of England. The great Protestant Missions in Corea are from the United States. Perhaps they, too, now at last may move in the same direction. Probably also both in Shantung and Corea it will be not at all harmful to throw full responsibility for awhile upon Chinese and **China**

China

Corean priests working under the bishops. It may lead, indeed, to a far greater degree of dependence upon the people of the land to manage their own Church affairs and minister spiritually to their own people.

Two other leading facts: Bishop Norris has solemnly blessed and sent westward from Peking two Chinese missionaries in order to open work in the Province of Shenzi. This step has been determined upon by the Synod of the Church in China acting with full conviction. And it is the first step of the kind in our own Chinese Mission. The prayers of Churchmen will follow our two Chinese brethren. The other fact to be noted is the steady development of medical work in China. The Rockefeller Trust has placed a very large sum at the disposal of a Board on which the Anglican Church is represented. All Missions can have their students trained in medicine, and their own medical missionaries have a share in the government. The students of each Mission have their own hostels with full Church life. The first hostel of the Anglican Mission is being erected at the cost of more than £3,000, provided mostly by the S.P.G. (with a beautiful chapel), at Chi-nan-fu, the capital of Shantung.

Japan

Japan.—No missionary events of first importance seem to have occurred in this great country. In the diocese of South Tokyo the Rev. Father Kelly is once more at the Anglican Theological College for another term of service, and a welcome helper. And an interesting fact is recorded in connection with the Borin Islands. The Rev. L. B. Cholmondeley has added to the bibliography of the Mission by saving and collecting all documents relating to these islands. It is a Mission of the Japanese Church, as also is their work in Formosa. No European grants are made for this purpose. In the diocese of Osaka the S.P.G. has been able to aid the Bishop by purchasing the site and buildings of the Girls' School in Kobe at a cost of £1,000, a most welcome and necessary step. It falls in well with the fact also that the Jubilee of Women's Work (S.P.G.) was very enthusiastically kept in this diocese during 1916.

Corea

Corea.—The leading fact about this Diocese has reference to National Service. Bishop Trollope has been in communication with the British Ambassador at Tokyo in regard to the European staff of the Mission. He has suggested that all who are of military age should be placed at the disposal of the Government for such purposes as may be suitable. It would mean that possibly the Bishop and two European priests would be left in the Mission. These with the aid of three Corean priests and one Corean deacon would carry on necessary ministrations. We believe that much the same action has been taken by the Roman Mission in Corea, the priests being of French origin. The great Protestant Missions in Corea are American. It is not known yet what action they may now take.

Africa

Africa.—It has already been mentioned how grave are many missionary problems in this continent. How the continent has

suffered ! The white man has a heavy conscience in looking back. **Africa** No nation is free from blame. The slave trade, the drink traffic, exploitation of forced labour for rubber and other commodities—it is a very sad story. On the other hand, no continent has a finer record, even unto death, than Africa, and in the Name of Christ, east, west, north, and south, all contribute to martyrdoms and single-hearted devotion of life. Livingstone, Gordon, Hannington, are but typical of hundreds.

South Africa.—This great province has nobly aided in the war. **South Africa** Many clergy have gone to the Front from all parts. Every effort is being made to fill the void left by the elimination of German influence from South-West Africa. Moreover, when labour battalions, composed of Zulus and other races, were sent to the Front they have been accompanied by European priests who know the language, by magistrates who are Communicants, by African priests, and by catechists. Of course, all other Missions have also taken their full share in this happy task. The *Church Abroad* for May 1917 contains a wonderful account of the voyage and of the life of this splendid contingent in France. There is no reason why these men should not return better morally than when they went. Two honoured names, among others, passed from the South African Church during 1916. Bishop Cornish resigned the See of Grahams-town after a long and fine service. The following statistics of his sixteen years' episcopate can be translated easily into spiritual terms. Money spent on European churches, £56,000 ; rectories, £18,000 ; parochial buildings, £7,000 ; schools, £35,000 ;—in all £137,900. Native Mission churches, £11,000 ; schools, £7,000 ; houses, £340. The African Christians build their own African churches. Canon Taberer and his wife have both passed away. The Canon had done fifty years' work, and died in the land to which he had devoted his life. Kieskama Hoek will ever remember him. A third must also be mentioned. The Rev. S. M. Samuelson has lately passed away after fifty years' service for the Church.

Bishop Cornish's successor, Bishop Phelps, in the course of his annual report, writes :—

" I had the joy of ordaining a native priest last January, and two native priests and four deacons last Trinity. We have lost one of our senior native priests by death, and another is leaving us, from reasons of health, for work in a neighbouring diocese.

" During the past year a large number of our native men have joined the Labour Contingent, which has been recruited for work in Europe in connection with the war. To my great joy the Archbishop accepted my nomination of one of our native priests—the Rev. A. G. Petros—to go as chaplain with the contingent. The diocese is honoured by one of its clergy being thus chosen. Mr. Petros was in camp with the contingent at Cape Town before sailing for Europe, and made an excellent beginning by getting to know the men and gathering the Churchmen round him. He is full of hope that the opportunity thus given will, by God's mercy, bear much fruit."

Bishop Roach, the Assistant Bishop of Natal, in the course of his annual report, writes :—

" The forward movement about which we have sometimes spoken has at

South Africa

length assumed a hopeful prospect. On Trinity Sunday four catechists who, after long service, had been prepared by Canon Troughton at St. Albans for their future work, were ordained to the diaconate. They passed a most satisfactory examination. We look forward to their ordination to the priesthood, for, in the absence of recruits from the white race, it has become obvious that if the work is not to suffer very greatly it must be done by men of the native races. Even apart from the fact that European priests are not obtainable, it is being shown by experience that it is highly desirable that, as far as possible, the Church's work amongst the native people should be done by qualified natives working under Europeans of experience and knowledge of the natives."

The Bishop of Pretoria in the course of his annual report writes :

"According to the census of 1911, there are about five million heathen natives in that part of South Africa which is included in the Province. Of these just about one million are in the diocese of Pretoria : we therefore think we have a greater claim to be called a missionary diocese than any other in the Province !

"The latest returns to hand show that we have 258 native congregations in the diocese (an increase of 50 in five years); 163 Church buildings, 19 native clergy, 192 catechists, and 249 assistant catechists, with 12 European clergy giving all their time to native work, 12 others giving part of their time, and 14 lady missionaries.

"I am glad to be able to report that the contributions from native Christians to the Native Mission Central Fund increased from £299 in 1915 to £368 in 1916, while the contributions from mining companies, etc., have increased over £600, which I think is indicative of the appreciation in which the native Mission work is held by those responsible for the employment of large numbers of natives."

The diocese of Lebombo sends forth a cry which we hope will not fall on unheeding ears. They have many great needs, but far the chiefest is a supply of European clergy. It is genuinely a bitter cry, and we hope there will be quick response.

Bishop King sends most cheering reports about the great growth of friendliness on the part of the French Government towards all British Missions. This is a most welcome fact. French officials have examined the books used by the various Missions, have listened to their teaching on loyalty, and have gladly recognised the regular use of the French National Anthem. The result is that all distrust has been removed. This news is all the more welcome because the Indian Government, in consequence of German machinations, have been compelled to ask the question whether it is possible to continue to permit aliens to have charge of the education of large masses of simple natives of various races. It is good to realise that no government is likely to ask any such question of British Missions. The missionaries of the Church in Madagascar have generously given one-twelfth of their incomes to save S.P.G. grants, but such an act was deprecated from the first by the Society itself. Bishop King at the close of his report writes :—

"In conclusion, I can only express what I feel, when I say that I believe we shall one day do a great work in this island. Our relations with the French Administration are most happy at the present moment. I believe great good was done by a recent official examination into the publications, hymn-books, etc., of all missionary societies : it was found that regular prayers are said by us for France and her President and the Governor-General of this island. I believe that our work is better understood and our entire loyalty to France is

becoming better known and appreciated. Our relations with other missionary societies continue most friendly."

**South
Africa**

**The Gold
Coast**

The Gold Coast.—Steady progress is being made in the diocese of Accra. It is, of course, still the day of small things. For example, work by European women has not yet commenced, and probably the war must end before this indispensable force appears on the field. The first diocesan conference was held in 1916—a great and most wise step—and it is most gratifying to note that there was a full representation both of clergy and of laity. Moreover, two African deacons were raised to the priesthood. At present only five or six centres are definitely held; but the eyes of the Bishop and his clergy are fixed upon the western side of the diocese. The people are crying out for teachers and clergy; the cause is urgent, but the Bishop feels that it is a harmful thing to create a very weak centre—so weak that it is often left derelict. We all hope that this western region will soon be strongly held. It has been carefully visited by Archdeacon Morrison and others. One notable piece of news reaches us—namely, that it is probable that the large Basle (German) Missions may be bodily taken over by one of the great Scotch Missions and as a permanency. Surveying West Africa generally, we continue to look for the formation of some sort of Province to link together Sierra Leone, Liberia, the Gold Coast, and the two Nigerias. Bishop Ferguson of Liberia, an African, has passed away. But before the Church in the United States proceeds to elect his successor a commission has been sent to Liberia to investigate and to report upon the whole situation.

CANADA.—All Canadian dioceses agree on one point—namely, that in consequence of the splendid contribution Churchmen have made to the armies at the Front the Church has to mark time at home. Many Mission districts are without clergy—sometimes as many as twenty-four in one diocese. The neighbouring clergy have to do what they can. But all this is on a par with the withdrawal of men from farms and businesses. Canadian Churchmen do not grumble; they are proud to bear their burden for the great cause. There will also be immense changes after the war. The return of the army, the shifting of population (a very likely possibility), the change of sites of mining centres and timber camps will probably mean the shifting of churches and rectory houses. There is only space for two extracts from diocesan reports. They must be taken as typical of all the dioceses. "In the diocese of Qu'Appelle 24 Missions are vacant; 24 clergy are serving with the Army. There are 110 clergy on the list and 9 lay readers, 29 self-supporting parishes, 100 Missions, 400 places of worship; £42,000 was raised in the diocese; 66 per cent. of the Missions are less than five years old, showing how new the population is." In the neighbouring diocese the Bishop of Calgary remains at his arduous post with a ministry in Canada of forty-nine years. From the diocese of Athabasca there comes this graphic account of work, quite typical. It was in the depth of winter with the thermometer 30 to 40 degrees below zero.

Canada

Canada

"I left over two weeks ago, and in that time have travelled nearly 250 miles. I held five services on certain days, with an average attendance of about twelve at each service. I visited thirty houses scattered over a country grouped in seven settlements, containing nearly 160 people. Many had not seen a minister or priest for three years. All gave me a welcome. Many were Roman Catholics, but they were just as glad to see me as our own people. I came across a few non-Christians. As I travelled from place to place it made me wish I could be entirely set free to do this work for a few years. I came across past scholars of our three Indian schools."

There is no work more Christ-like than such ministrations to mere handfuls at a time. It tests the true missionary and differentiates him from the pastor.

The West Indies and South America

The West Indies and South America.—During 1916 this Province lost three of its bishops. Archbishop Nuttall (one of the greatest of leaders), Bishop Swabey of Barbados, and Bishop Welch of Trinidad. Two of these sees have not yet been filled—those of Barbados and Trinidad, as well as the Bishopric of British Honduras. Bishop de Carteret succeeded Archbishop Nuttall as Bishop of Jamaica. Bishop Parry, of British Guiana, is senior bishop, and upon him devolves the business of the Province and of the election of the next archbishop. We hope, as we survey the West Indian group of islands, that days of prosperity are before them: not only through the opening of the Panama Canal, but also because of the new and surely inspiring proposal that Canada, Newfoundland, and the West Indies should form one great dominion. Mention must be made of the important offshoot of the diocese of Trinidad in Venezuela. No one has yet taken the place of Canon Trotter; but the Rev. J. H. P. Welby is doing noble work, and longs for a colleague. There are now three Anglican Churches in Venezuela—at Caracas, El Callao, and Ciudad Bolivar—built by Churchmen, mostly coloured. We still have a warm tie with the diocese of Argentina, though our grant to it is a small one.

Australasia

Australasia.—Churchmen throughout Australia and Tasmania eagerly advocated conscription to carry on the war. The country refused, and no regrets were more loudly uttered than those of leading Churchmen in all parts of the land. One outstanding and welcome step has been taken by the Australian Church. At length all its Mission work is included within the official Australian Board of Missions. The Church is to be heartily congratulated. Churchmen in Australia of differing views have showed self-denial and self-restraint, and are worthy of all honour. In the past there have been two main divisions. The Australian Board of Missions conducted the affairs of such Missions as New Guinea and Melanesia (in part), and of certain aboriginal Missions. But there also existed, and quite separately, the Church Missionary Association, a very devoted and living force. This Association has now consented to come within the Australian Board, not losing its individuality, but acting as part of the General Board of the Church with its own special safeguards. It is a fine consummation.

Torres Straits Mission.—The following account is of special interest in consequence of the transition from the jurisdiction of the London Missionary Society to the Anglican Church :—

**Torres
Straits
Mission**

“The work of the Mission has developed very much during the year. Two priests are at work—the Rev. J. J. E. Done, who makes his headquarters on the island of Mabinag, and the Rev. G. S. Luscombe, at St. Paul's, Moa. More than 500 of the people were confirmed during the year. A few were found not to have been baptized when inquiries were made, and these were baptized as adults just before the Confirmation. Nearly all the L.M.S. members offered themselves for confirmation, and many old men and women have been confirmed.

“The churches have been adapted for service, and have lent themselves to adaptation readily. In every case the priests supervised the work, which was done by the people themselves. Perhaps the most striking thing in this is that the huge ‘pulpits,’ which were the most prominent things, have been in nearly every case taken to pieces and altars made of them.

“At Mabinag a new church, built of concrete by the people themselves, and at their own cost, was dedicated in August 1916. The services were very fine—in church and outside. Representatives came from all the islands in the Straits, and there was an offering of £47 14s. In olden days there was a system of pitting one island against another to increase the collections on such occasions. We refused to allow this at Mabinag; and the offertory and collection was made during service in the ordinary way. The wardens decided to use the money to pay their debts; £39 they devoted to the college to be established at St. Paul's, Moa, a portion to the New Guinea Mission for the new church at Tanpote, and a further portion to be sent to the Secretary of A.B.M. for allocation to what Missions he thought best.

“There was a very fine out-of-doors service attended by some 600 people, when native Christians gave addresses.

“There was feasting and dancing; another great point about the celebrations was the way in which Church services and feasting and dancing blended. The services were as naturally a part of the rejoicing as the feasting and dancing.

“We are expecting to establish a college for the training of native Christians for ordination at the end of this month—when four or five men will begin their training. The college will be for the present at St. Paul's, Moa, and Mr. Luscombe will be in charge of it. Details are not yet arranged; but we intend to have the students do some gardening work—partly as a help for their support, partly that they may not get to think normal labour beneath them, partly that they may be able when ordained to still do garden work to help in their own support and so make it possible for the islands on which they will be stationed to keep them. Probably the people could not do it entirely.

“Our aim is to have a native priest on every island where there are a number of people, so that the people will have their regular services and sacraments. The priests will be supervised by a white priest, and we hope to accomplish this in ten years. In some ways we are aiming practically at what Father Kelly suggests in his article in ‘The East and the West.’ The priests will, if our scheme works out, spend part of their time in their gardens, and part in providing instruction and sacraments for the people.

“We are hoping to have a third priest in the islands soon. It is important to get things on to good lines to enable the native priests to do good work when their time comes. That cannot be done unless much time is given and frequent visits made in the next few years.”

The South Pacific Ocean.—This enormous tract of ocean, covered with groups of islands, is a hard problem for the Anglican Communion. There are scattered members of the Church to be found in all parts. All that can be done at present is to place the Anglican jurisdiction in these regions into the hands of a Bishop of Polynesia. His residence is in Fiji. Besides the work of Bishop Twitchell, there is a noble Mission in the Tongan Group carried on by Bishop Willis, sometime Bishop of Honolulu. All sympathy should be

extended to these two Bishops who hold the fort for the Anglican Church in these remote regions. Few know about their work, but there are no nobler spheres of the true missionary character : ministration among the few scattered members of Christ's Body who look to the Anglican Church as their Mother.

North-West Australia

North-West Australia.—This is one of the outposts of the Church, and one of the loneliest. We are thankful to say the outlook of the region in 1916 has been bright. The Bishop says :

“ The condition of North-West Australia during the year has improved. The long drought in the southern part of the diocese has completely broken, and the wool-clip has fetched phenomenal prices. In Broome pearl-shell also has risen from £110 to £180 a ton, and the report of the Royal Commission has put an end to the agitation against the use of coloured crews. The North-West has responded admirably to the call for recruits, and contributions to Red Cross and other war funds have been generous.”

In regard to the Forest River Aboriginal Missions, the Bishop says :

“ I have failed this year to get to Forest River. The Mission, though terribly understaffed, having only two white men, has made admirable progress under Mr. Gribble.”

Kalgoorlie

Kalgoorlie.—On the other hand, the great mining diocese of the west, Kalgoorlie, is in very low water at present. All who know anything of mining know that this is the usual history of this industry. It often seems that complete collapse is at hand and is final. Then follows a season of immense prosperity and an overflowing population. The special difficulty of this diocese consists in the fact that it is wholly mining, and has at present no other asset. The Bishop is gallantly at work, and has extended his travels to the construction line which is to carry the railway across the continent. The Church in Australia will of course watch with special care over this the newest of the dioceses in its jurisdictions. And no Church knows more thoroughly all that is to be known about great mining regions. The S.P.G. has helped this diocese at its inception to the full extent of its powers. And the Kalgoorlie Diocesan Association is affiliated to the Society.

EUROPE.

Chaplaincy work on the Continent of Europe has not been able to advance during the year. The good beginning made by the Rev. G. A. Campbell Bell at Mürren among the wounded English soldiers has, we are glad to say, been carried on by the Chaplains' Department of the War Office. The English Community at Berne has become much larger than in normal times, and the newly appointed Chaplain, the Rev. A. J. Hailey, has to visit five or six hospitals in the neighbourhood, where interned soldiers are being treated. He also has to look after English people at places within reach of Berne, and hold occasional services where opportunities arise.

The vacancy at All Saints', Rome, has been filled by the appointment of the Ven. G. H. Sissons, who had been the Society's Chaplain at St. John's, Mentone, and to whom the Bishop of Gibraltar has assigned the position of Archdeacon of Gibraltar.

Among the chaplaincies special help has been given by the Society to St. John's, Boulogne, Caen; Paramé, Dieppe, St. John's, Mentone, Siena, St. Paul's, Cannes, and St. Jean de Luz. Berne and St. Servan are also aided.

NORTHERN AND CENTRAL EUROPE is under the jurisdiction of the Bishop of London. Assistant-Bishop, the Right Rev. Herbert Bury, D.D. (Cons. 1908), 1911.

The following permanent chaplaincies are connected with the Society:—

In **AUSTRIA-HUNGARY**: *Budapest* (with *Totis*); *Prague*. In **BELGIUM**: *Ostend*; *Spa*. In **FRANCE**: *Boulogne-sur-Mer* (St. John's), Rev. H. Northcote; *Dieppe* (All Saints'), Rev. Dr. C. Merk; *Dinan*; *Paramé*, Rev. R. S. Kendall; *Pau* (St. Andrew's), Rev. R. H. D. Acland-Troyte, M.A.; *St. Jean de Luz*, Rev. C. E. Weston, M.A.; *St. Servan*, Rev. C. E. Hutchinson, M.A. In **GERMANY**: *Aix-la-Chapelle*; *Baden-Baden*; *Bremen*; *Cologne*; *Frankfort-on-the-Main*; *Freiburg-im-Breisgau*; *Gotha*; *Hanover*; *Heidelberg*; *Karlsruhe*; *Leipzig*; *Stuttgart*; *Weimar*. **RUSSIA**: *Litau*. And in **SWITZERLAND**: *Arosa*, Rev. E. W. Moberly, M.A.; *Berne*, Rev. A. J. Hailey.

Diocese of **GIBRALTAR**, founded 1842. Bishop—The Right Rev. Henry Joseph Corbett Knight, D.D., 1911.

The following permanent chaplaincies connected with the Society are under the Bishop's jurisdiction:—

In **FRANCE**: *Cannes* (St. Paul's); *Grasse*, Rev. P. B. Horne, M.A.; *Mentone* (St. John's). In **ITALY**: *Rome* (All Saints'), Ven. G. H. Sissons; *Siena*. In **TURKEY**: Christ Church, Pera, *Constantinople*, Rev. R. F. Borough, M.A.; Acting-Chaplain, the Rev. W. A. Wigram, D.D.

The following contributions to the Society's Funds were received by the Treasurers on account of 1916:—Denmark, £5 0s. 6d.; France, £36 18s. 9d.; Gibraltar, £236 10s. 11d.; Greece, £5 18s. 6d.; Italy, £46 8s. 11d.; Norway, £21 10s.; Portugal, £1; Russia, £1 14s. 10d.; Sweden, £1 5s. 2d.; Switzerland, £71 18s. 7d.

MEDICAL MISSIONS DEPARTMENT.

Owing to exigencies of space it is only possible to give the barest outline of the events of the year. In drawing up a skeleton report, one finds that the more purely missionary aspect of our work suffers more than the philanthropic; the former is less patient of being reduced to statistics than the latter. The reader will kindly remember this, and will not suppose that the preaching of the Gospel has been neglected or given a subsidiary place even to the healing of the sick.

Home Base.—Early in the year Dr. H. H. Weir was appointed Secretary to the Department, but in September he joined the R.A.M.C., and is now in Bombay. An Acting Secretary is carrying on the work until he returns.

Elsewhere will be found a statement of income. We have thankfully to record an increase of £1,218. This gratifying result is due to thankofferings in connection with the Women's Jubilee, S.P.G. Two facts have to be noted—that without this aid we should have had a deficit of £133 as compared with 1915; and that £385 of the £10,798 collected is to be invested, the income only being available this year.

Most valuable work has been done by the Sections of the Department. The Special Needs Section has sent out 70 cases and parcels to our Mission Hospitals, has cut into garments 2,400 yards of material, has received 302 parcels, and has collected and spent £144 on hospital requisites. The Beds and Cots Section reports 24 new beds and cots adopted, the total thus supported at present being 167; 7 have lapsed. The Medical Literature Secretary, in spite of discouragements due to the war, collects and sends medical reviews, &c., to our missionaries; and Mrs. Randolph continues her useful work of typing and circulating reports among friends at home.

Much fewer meetings have been held during 1916; we are keeping down "deputation" expenses as much as possible, but are always glad to send a speaker when a useful opening presents itself.

Lahore

Delhi.—Dr. Müller came home in April on furlough. We deeply regret that medical opinion is adverse to her resuming her work in Delhi. She has devoted thirty-three years of her life to the Mission, and the value of her services is warmly appreciated by her patients, her fellow-workers, and the Society.

Dr. Agnes Scott has laboured at her post for fourteen years in spite of grave disadvantages of health. These have been so serious, that when she was offered a less onerous government post, carrying with it great opportunities for useful administrative work for the women of the Punjab, we felt reluctantly compelled to acquiesce in her accepting it. Her departure from Delhi is a very great loss to the Mission.

Dr. Scott has sent us an important account of work in Delhi Hospital, which we hope it may be possible to publish at length in one of the Society's magazines. The total number of attend-

ances was 20,747, and of new patients 8,537; there were 617 **Lahore** operations.

Karnal.—Dr. Bazely returned from furlough in the middle of August, having taken a higher medical qualification than could be obtained in India, thus enhancing her powers of usefulness. The number of patients is greater than in 1915, owing to the fact of a doctor being in residence the whole year.

Rawal Pindi.—Dr. Cowie reports the opening of new quarters for the hospital-assistant. There has been a slight increase in the number of in-patients. The English residents raised £60 for the medical work, and it is proposed with this money to re-build the small operating-room, or else to obtain an equipment for the proposed dispensary in Kohuta.

Cawnpore.—Dr. Ethel Pryce reports uninterrupted work with a full staff, except during holiday time. More patients came from a distance, and distant visits have been paid. Four villages have been visited weekly. **Lucknow**

Dr. Meta Smith's report is very interesting from the medical point of view. She mentions that "there have been 3,000 more out-patients this year than last. The type of work remains the same."

Miss Cave-Browne's labours have been continued with true evangelistic zeal, and Sister Rodgers has had some encouragement in her important work of training Indian girls as nurses. "The patients on the whole do seem extremely thankful for all that is done for them by the nurses."

Murhu.—Dr. Williams, like many other medical missionaries, **Chota Nagpur** is distressed at the amount of unrelieved suffering in the remoter parts of his district. He is single-handed, and if he undertakes distant itinerating work, the hospital at Murhu must perforce be neglected. The Government has shown its appreciation of his labours by offering to help him to start dispensaries at two weekly markets ten and sixteen miles away, but there are difficulties of time, expense, and means of travelling. The new operating-theatre will be, we hope, in working order by the time this report is printed. Dr. Williams sent up some boys for the examination for compounders, and when he asked one of the native examiners why they had not passed he received the truly Oriental reply: "It is very difficult for outsiders to get through, because they do not know their examiners." The inference is obvious and disheartening.

Govindpur.—Dr. Kennedy writes :

"Medical work is not very satisfactory. I have no accommodation for in-patients. During the dry weather I operated on a good many cataracts and such cases as I could keep under trees and in verandahs. At times the out-patient work was rather overwhelming, especially when I had no compounder. Our new cases number just over 3,000. I brought from Tokarma, 30 miles off, a boy with a most awful leg, who was in a fair way to die. I had to put him in a disused hen-house as I had nowhere else available. He has done very well."

**Tinne-
velly and
Madura**

Ramnad.—Dr. Ethelwyn Walters has returned for a much-needed furlough. In her report she describes a very interesting village tour which was made possible by the arrival of Thanam Stephens, a Christian girl who has qualified as sub-assistant surgeon, and is now carrying on the medical work at Ramnad. Dr. Walters mentions one place where she saw 240 patients in a day and a half; many more came whom she could not see for lack of time.

Nazareth.—No formal report has come to hand, but we know that Dr. Wells is carrying on his excellent work in Nazareth and the district.

Singapore.

Singapore.—Dr. Ferguson-Davie reports that there has been no interruption in the work of the dispensaries. The staff (which includes five Asiatic assistants) is now entirely Christian. In spite of the war, there has been no serious financial anxiety.

A small girls' school has been opened in a vacant room of the Cross Street dispensary. There have been 2,492 new out-patients and 75 in hospital: the total attendances numbered 8,093.

Malacca.—Dr. Elsie Warren writes:

"Owing partly to the increase in other departments of the work and the exhausted condition of the staff, the number of patients visited in their own homes has been less than usual."

Still the statistics show an immense amount of arduous work: total attendances, 4,226; in-patients, 133; many operations, surgical dressings (1,352 of these), maternity cases, &c. Three nurses were prepared for a government examination.

**North
China**

No formal reports have reached us, but we have been in correspondence with the Bishop about the very important work of reorganisation, concerning which it is too soon to write definitely.

**Shan-
tung**

From this diocese also we have had no formal report. Here, too, new schemes are on foot which will be reported later.

Corea

Dr. Laws has, we understand, sent a report, but at the time of going to press it has not arrived.

John's,

ria**

Tsolo.—The number of new patients was 1,783, and of attendances 4,654; 40 major and 88 minor operations were performed. These numbers are smaller than the corresponding numbers in 1915, but Dr. McMurtrie has had to do his share of "war work," e.g., taking the place of a district surgeon who left to accompany a Native Labour Contingent now in France. Thus the hospital was closed for about ten weeks. A most useful and rather expensive ceiling has been put up, the cost being defrayed by the European residents. Previously the only covering was the galvanised iron roof—hot in summer and cold in winter.

Mlengana.—This station is closed for the duration of the war. Dr. H. Irving, whose health is much improved, hopes to return with a nurse and housekeeper as soon as the Government will permit.

THE CHURCH HOUSE is the CENTRAL BUSINESS HOUSE of the Church of England and other Churches in communion with her.

In it CONVOCATION and the HOUSE OF LAYMEN for the Province of Canterbury hold their Sessions, and the REPRESENTATIVE CHURCH COUNCIL also sits here. FIFTY-THREE CHURCH SOCIETIES have their Offices in the Building, and OVER 800 MEETINGS are held annually in the Halls and Committee Rooms.

There is a valuable LIBRARY and READING ROOM furnished with Church Papers from all over the World.

Members of the Corporation have the PRIVILEGE OF TAKING BOOKS OUT OF THE LIBRARY, they have the use of the Public Rooms, and they can have their letters addressed to the Church House and forwarded as may be desired.

CONDITIONS OF MEMBERSHIP.

Membership of the Corporation may be acquired by persons of either sex (being Members of the Church of England or of any Church in full communion therewith) by an Annual Subscription of at least One Guinea; Life Membership by a Donation in one sum of at least Ten Guineas. Associates are admitted on the payment of Five Shillings a year on the recommendation of a Member.

**The Council appeal for Funds towards the much
needed extension of the permanent building.**

SYDNEY W. FLAMANK, *Secretary*.

THE ARCHBISHOP OF CANTERBURY says: "If we were able to estimate aright the work which the Church has been doing in the Master's name, we should find nothing nobler, or more worthy of praise, than the work of scores and scores of practically unknown men who have been toiling in the poorest parts of our great towns."

THE ARCHBISHOP OF YORK writes: "I most cordially commend the work of the Home Missions of the Church (A.C.S.). It is quite invaluable as a means of enabling the Church to meet the demands of an ever-growing population and to fulfil its duty to the nation."

HOME MISSIONS OF THE CHURCH.

THE ADDITIONAL CURATES SOCIETY exists to help poor parishes to obtain the assistant Clergy they require and could not have without money assistance from outside their own borders. In helping poor parishes the Society touches the slums in the centre of large cities, the poorer suburbs outside the cities, and also the mining and other industrial towns and villages.

The Society's work is of very real importance at the present moment. It acts as a **CENTRAL AGENCY** for conveying help to those parts of the country where pressure is greatest. It enables Churchpeople in any given part to send help to those needy places which are beyond the border of the Diocese in which they live, and therefore cannot be helped by their contribution to its Diocesan Finance. In this way the A.C.S. is giving great help to the poor districts of South London and "London over the Border," to the growing populations in Barrow, Grimsby, and Middlesbrough, to the colliery regions of South Wales, and to the Diocese of Lichfield with its Pottery and "Black Country" parishes.

A.C.S. Office:—21 Great Peter Street, Westminster, London, S.W.

REPEAL OF THE WELSH CHURCH ACT.

THE leaders of the Church patriotically submitted to forego, in the interests of National Unity, the measure of postponement which the late Liberal Government themselves proposed as just, and which Mr. Asquith admitted they were entitled to insist upon.

The last day of the War, therefore, will see the Church in Wales deprived of its ancient endowments unless Parliamentary action is taken in the meantime.

Churchmen of every political party are earnestly invited to continue their support of the Central Church Defence Committee so that it may maintain its organisation, and, when national conditions permit, launch an effective campaign for the reconsideration of the Welsh Church Act with a view to its repeal.

CHURCH COLLECTIONS, however small, will be most gratefully received.

Cheques (crossed Messrs. Hoare) may be sent to the Secretary, at the offices of the Committee in the Church House, Dean's Yard, Westminster, S.W.

Curates' Augmentation Fund

The only Society in the Church of England
for the purpose of helping Assistant Curates.

Presidents—HIS GRACE THE ARCHBISHOP OF CANTERBURY.
HIS GRACE THE ARCHBISHOP OF YORK.

Treasurer—Rev. T. A. SEDGWICK.

This Society augments the Stipends of Curates who have been more than **15** years in Holy Orders, and are still in full active work.

Of the **7,000** Curates very many have been ordained more than **15** years, and this number is annually increasing.

It is the only Society in England that directly increases the Stipends of Curates of long standing.

The War has seriously strained our resources. **£2,000 required immediately** to avert diminution in the number of grants.

The Church is multiplying Curates three times as rapidly as she is multiplying Benefices.

Nearly **£8,000** was voted last year in Grants.

The average Stipend of those receiving grants does not exceed £3 a week.

CHURCH COLLECTIONS, SUBSCRIPTIONS & DONATIONS THANKFULLY RECEIVED.

Cheques, P.O.O., and Postal Orders, crossed "COUTTS & Co.," should be sent to the OFFICE: 2 DEAN'S YARD, WESTMINSTER, S.W.

REV. A. G. B. ATKINSON, *Secretary.*

The Archbishops appeal for **£20,000** a year for the next few years to carry on the work.

The Printed Page

THE ATTEMPTED COMBINATION OF ECONOMY WITH EFFECTIVENESS IN PRINTING USUALLY LEADS TO DISASTROUS RESULTS IN ONE OR TWO WAYS. Either the saving is evident and the printed matter becomes manifestly cheap, or in the attempt for superficial effectiveness, bright colours are used, and a tawdry, bizarre publication results. It is possible to waste much money by economising at the wrong time. The printed matter is the result of several processes, the one dovetailed upon another. If any one of these is slighted, the whole result suffers more than if the economy were judiciously exercised over the whole job. If economy is necessary, it must be exercised where it shows least, and it must be wisely exercised, lest it undo the result of expenditure elsewhere.

¶ The cultured buyer feels it is something of an affront when the advertiser sends him tawdry, bright-coloured, cheaply-printed matter. The advertiser must beware lest the effect of his advertising be not only neutral, but actually unfavourable to the disposal of his wares. The psychology of the buying mind is worth consideration.

¶ The more money that is judiciously spent on printing the more effective it becomes. The ideal condition is, of course, to have a certain plan in mind and follow that out in the best way without thinking of the expense. If the mind which plans the book is not at fault the publication should bring in more than is spent on it, directly or indirectly. The better the publication the more it brings in. The printer, however, is almost invariably confronted with the problem of producing "the best work" for little money. He cannot do this, but he can, as has been said, economise without materially interfering with the effect of the publication in the matter of paper, type, art work, etc.

¶ The best advice, too, about saving on studio work is—"Don't." That is to say, if there is to be any studio work at all, have it well done.

A representative who understands his business, and who will intelligently appreciate your needs, can wait on you to discuss either Illustrated Catalogues, Magazines, Trade Publications, Brochures, Folders, Insets, or printed matter of any other description.
